Bucket Buddy

Rafael Braga, Rob Howe, Jason Nance

Summary

Users can:

- Create/edit/delete teams and players which are stored in a local database

- Record stats during a game for a given team and its players

- Edit any stats during the game to correct mistakes

- View graphs of career stats and a shot chart by season or for the player/team's career

Features Undone

- More detailed options for viewing stats
- More attractive interface
- Database code optimization
- Handling incorrect user input
